

# WOMEN IN FILM

The Carmel Art and Film Festival's Women in Film program is a celebration of women in the film and art industries. From the networking opportunity lunch on stage at the Sunset Cultural Arts Center, to the provocative panel discussion to a dynamic screening, it is designed to support and encourage present and future artists. A catered lunch for 150 is held on stage after which we open up the entire theatre for a panel discussion featuring five trend setting women representing different aspects of the film business. We follow that up with a related screening. While we bring together accomplished and powerful women in many fields, we also strongly believe that young women just starting their careers should also have a "seat at the table" so we reserve at least one seat at every table for young women who attend as our guests. Proceeds from the event also benefit the Carmel Art and Film Festival's scholarship fund.

## TIME & LOCATION

### SUNSET CULTURAL ART CENTER

Carmel-by-the-Sea

**Saturday**
